SUBJECT: Suggestions for reply to Dr. Fonti

Dear Dr. Fonti:

Thank you for forwarding your book and other reprints concerning your work in cancer research. I have given these to some of the physicians who have been attending Secretary Dulles. Some of these physicians are engaged in active work in cancer research and the material you have sent is most welcome to them.

May I thank you once again for your generous gesture and for your kindly offers to make your research results available to these physicians.

Sincerely yours,

STAT
